## 👤 PROFILE

A software engineer experienced in building mobile and web apps using Flutter, Python, Java, Kotlin, Swift and Web frameworks (ReactJS).

I have a good knowledge of software development lifecycles. I am able to effectively self-manage during independent projects, as well as collaborate as part of a team.

The LINKS section has clickable links to my portfolio. Or see [my-portfolio-website](#).

## EMPLOYMENT HISTORY

### Software Engineer (2022 – present)

With Collaction (A start-up in the Netherlands) on part-time. I help with:

- Building their mobile app using Flutter. Website URL is: [Collaction.org](#)
- Tools/Skills: Bloc, Domain-Driven Design (DDD). Backend using Next-JS. ReactJS

### Software Engineer (Jun2023 – Nov2023)

With ZinoxTech on Full-time. Site URL. I help build:

- An Image Transformer: URL, real-time image manipulation. Similar to [imagekit.io](#)
- Logistics Aggregator: between multiple couriers to transport items. With consideration for partners with intercepting polygons.
- Headless Image Micro-Service: Rest and GraphQL endpoints, that a client can integrate to fetch image from multiple sources.
- Tools/Skills: Python, FastApi, AWS S3, MongoDB, MySQL, Postman-doc.

### Data Scientist (3 months. Feb – May 2023)

For a client (Given a dry bean dataset, develop a system for automatic detection of 7 types of dry bean seeds.

- K-Nearest Neighbour (KNN) and Support Vector Machine (SVM) was used for the analysis. With performance measured. [View solution](#)

### Contract Mobile App Work (2020 -2022)

With MostHighGrade a start-up located in the United States of America:

- MHG app solution for showcasing smoking related products. Worked with owner from the Idea stage, app requirement analysis, to mock-up design, Implementation. Launched app on Apple Test flight.

With the Button Simple team: Built SIMPLE BUTTON an app that allows Care givers to communicate with their aged parents.

### Software Engineer (2020 -2021)

With TravelCrew (a mobile app for friends to share and organize travel plans and even create full itineraries together). I help with:

- Building their mobile app using flutter. Website URL is: [travelcrew.app](#)
- Tools/Skills: Dart, Bloc, Firebase

### Freelance Mobile App Developer on Fiverr (2019 - 2021)

On Fiverr, I offer the following freelancing service:

- App development, UI/UX design, custom app design and implementation of complex UIs with Flutter or Java/Kotlin Android. Depending on client's request.

#### **Open-Source Contributor on GitHub (2018 -2020)**

- TEST for SEED DECK on GitHub. A simple app for gardeners to track their seeds in the garden and see how different varieties perform
- Contribute to STACKED: A flutter package for state management

#### **Medical Researcher/Pharmacy and Lab Survey**

2017 (March to May)

- Worked with a medical doctor as his research assistant. The hospital gathered data on medical laboratories and pharmacies in Lagos State.
- My job was to visit the various branches of the laboratory and pharmacy in Lagos. I interviewed patients and have my survey book filled. 8 laboratories and 12 pharmacies in total, across 8 Local Government Areas.

#### **IT Support – System troubleshooting – Phone Repair Engineer (2015 - 2019)**

- During my time working as Oracle and Google Campus Ambassador. I fix trainees computer issues. OS repair, file recovery, fix system crashes, Virus detection.
- 2015 – 2019 work as a phone repair engineer at Computer village Ikeja.

#### **Mobile App Developer at LAUTECH (2019)**

For my final year project, I research 'The digital data & privacy of the deceased'.

For my submission, I built a Digital will app called JUST-WILL, which allows a person to decide what happens to their data after being dead or inactive.

Tools/Skills: Java, Android, XML, Android studio.

#### **Oracle Java Campus Ambassador at Oracle, Ogbomoso**

2017 — 2019

- I served as Oracle's Java campus ambassador for my University (LAUTECH)
- I pioneered several tech training and hackathons that promote Java.
- One is LOCAL HACK DAY 2018. An event which attracted over 450 attendees & featured tech solutions. The program was planned and executed within 10 days. See the [Medium post](#) I wrote about the event.

#### **Competitive/Sport Programmer. (2015 - 2018)**

I engage in available code competitions. Such as:

- HashCode, Summer of Code, GeeksForGeeks, Hactoberfest. HackerRank, LeetCode and CodeSignal questions.

## **EDUCATION**

**Bachelor of Science in Computer Science, Ladoke Akintola University of Technology, Ogbomoso, Oyo state**

2014 — 2019

## **COURSES**

**Android Certification Training Course, Edureka**

July 2020 — November 2020
